NOMINATIONS TO BE MADE TODAY

Wrangle over Seating of Bernalillo County Delegation Occupies All of Yesterday with No Decision Last Night

A telephone message from Albuquerque late last night was to the effect that the seating of the Bernalillo County Delegation had occupied the attention of the committee on credentials most of the day, and that not much else could be accomplished. It was decided to report the two delegations to the convention at the night session and allow the whole matter to be threshed out on the floor of the house, and settled there.

Ex-Governor L. Bradford Prince made the principal address yesterday before the convention. It was not thought probable that the nominations would be reached last night, although this was not beyond the realm of possibilities. The nominations will probably come up this morning and consume the greater portion of the day.

Rev. J. W. Hendrix, of Willard, was in town yesterday.

Felix Mares came in from the south on yesterday's noon train.

Capt. J. A. Groff, of McIntosh, was a visitor in Estancia yesterday.

J. A. Cobb, of Lucia, was in Estancia yesterday on business. He called at the News office and shoved up his subscription another notch. Muchas gracias.

J. R. Chapman, of Manzano, brought in another load of those delicious melons yesterday. He found ready sale for them, after the people sampled them last week.

Judge R. J. Nisbett and Mr. and Mrs. Arthur Adair left yesterday morning for Albuquerque, going overland. They have spent several days visiting friends in the valley.

Judge Howell was occupied yesterday in Justice Court with a case in which Mrs. J. W. Kookin was charged with larceny. She plead guilty, and was assessed all the costs in the case, amounting to about thirty dollars, the property being returned to its owner. Two weeks time was given in which to pay the costs.

Quite a number of democrats from this precinct left their farm work, which is now rushing, and came in yesterday to attend the precinct primary. If the same interest is shown throughout the election as has been shown at the primaries and conventions held thus far, we may expect a lively time before the election of the state and county officers is a thing of the past.

DELIVERS MAIL WITH AEROPLANE

New York, Sept., 26.—Frank H. Hitchcock, postmaster general of the United States, qualified as an aerial mail carrier on Long Island late today. Carrying seventy-eight pounds of mail, the postmaster general took a seat beside Captain Paul Beck of the United States army, in the latter's aeroplane at the Nassau Boulevard. Without the slightest mishap the two made a seven minute flight to Mineola, where upon a signal, the postmaster general dropped the mail to one of Uncle Sam's mail carriers. Mr. Hitchcock was enthusiastic over the trial.

Another feature of today's meet was a flight by Lieutenant T. DeWitt Milling, U. S. A., who broke the American record for carrying a passenger, remaining aloft for one hour, fifty-one minutes and 32 3-4 seconds.

The Farmington Enterprise "swiped" the item from the Albuquerque Journal in which Allen Barrett was quoted as having been editor of the Estancia News for some time past. By not giving the credit the Enterprise is placed in the same category as the Journal, and Stapling will have to dig up the cigars when we meet him.

The Willard Record finds fault with the people of Estancia for not attending the Fair and Water Carnival last Sunday and Monday. As the big day was advertised for Sunday and a number of our people think the week long enough for such things without taking the Sunday for it, several who would otherwise have gone stayed at home. We do not say that this is the reason all did not attend, but we know of several who would have attended had it been held during the week. With the big day, including a big dance at night, advertised for Sunday, they merely stayed away.

Willard Notes

(Willard Record)

Prof. J. I. Ferguson and Miss Mary Lobb came down from Estancia to see the exhibits.

Ernest Brandhorst was in Estancia last week and returned to his business here Tuesday night.

Miss Florence Means returned to her home in Willard Friday night from a pleasant visit with relatives near Estancia.

N. A. Wells of Estancia spent a few days with Mr. and Mrs. Alter, and incidentally took in the great and only Willard fair.

FLOOD WILL COME TO SANTA FE

Hon. H. D. Flood of Virginia chairman of the house committee on territories and author of the Flood resolution which gave New Mexico statehood, will be in Santa Fe Oct., 3d, during the Democratic state convention and will spend several days in New Mexico.

This information was contained in a telegram this week to Hon. Summers Burkhart, secretary of the Democratic state central committee and a lifelong friend of Mr. Flood. It was realized by the Central committee that the people of New Mexico would enjoy meeting personally the man who proved such a steadfast friend to New Mexico during the session of Congress just closed, and an earnest effort was made to get him to come. Added to the request of the committee were personal letters from the Democrats who met Mr. Flood in Washington. The appeal was successful as the following communication from Mr. Flood shows:

Appomattox, Va. 9, 26.

Regret can not be at Taos on 28th, but will be in Santa Fe Oct. 3rd, and will spend a few days with the Democrats of New Mexico. Am glad to hear Democratic prospects in New Mexico are so good. The Democratic party in Congress looked after New Mexico, gave its people statehood, and redeemed the pledges of this government to its Spanish American citizens. This was accomplished in spite of a presidential veto, and bitter opposition from the standpat Republicans in both branches of congress.

H. D. Flood."

Mr. Flood is making this trip at a considerable sacrifice because the long extra session left him worn out physically while his personal affairs needed his attention, yet so great was his interest in New Mexico that he gladly accepted the invitation to come. He was asked to come in time for the meeting at Taos on the 28th, but found it impossible to do so.

Hon. Wm. Sulzer of New York, chairman of the house committee on Foreign Affairs, and at the beginning of the extra session prominently mentioned for the position of chairman of the territories committee will also attend the Santa Fe convention. He too will spend several days in New Mexico and will speak at a number of places in the state.

Monte Averill brought in the finest sample of Milo Maize we have seen this year. It is about four feet in height, with extra heavy heads, well matured. Of this he has about twenty-five acres, and is harvesting a good crop. He also brought a sample of fine red Kaffir corn. This is not so well matured, but will make good seed for next year.
